ACF Adult Respiratory Medicine in conjunction with the University of Liverpool

Post availability

There is one post available in **Adult Respiratory Medicine**

Overview

You can find generic information about Academic Clinical Fellowships in the North West plus links to the National Institute for Health Research's guidance via https://www.nwpgmd.nhs.uk/nihr-academic-clinical-fellowships-glance

The Mersey region boasts exemplary training through the University Hospitals of Liverpool Group (UHLG) which includes respiratory departments at Aintree Hospital, The Royal Liverpool Hospital and Liverpool Heart and Chest Hospital. These hospitals offer the full range of specialist respiratory services and extensive training opportunities.
The successful candidate will benefit from supervision from Dr Dan Wootton and Dr Freddy Frost – both academic respiratory consultants with extensive experience of successful clinical academic supervision.

Academic Training

In addition to the top class clinical training in respiratory medicine the aCF's academic training will be associated with the mature research theme of respiratory infection. This theme spans acute and chronic respiratory infection syndromes including CAP/HAP/TB and NTM lung disease and infection related to both CF and non-CF bronchiectasis.

Research Areas / Research Environment

Infection is a major strategic research theme at the University of Liverpool and Respiratory Infection is a key component of that. The aCF will benefit from access to the department of Clinical Infection Microbiology and Immunology within the Institute of Infection Veterinary and Ecological Sciences. These boast and large number of internationally recognised experts in infection with methodological approaches ranging from bench science through clinical studies and including large data set analysis and implementation.

Research Facilities

The University of Liverpool and Faculty of Health and Life Sciences boast internationally leading scientific infrastructure for the study of respiratory and other infection syndromes.

Clinical Training

You can find out more about the clinical training programmes in the North West via the following link - https://www.nwpgmd.nhs.uk/specialty-schools

Clinical person specifications can be found via the following link - Person Specifications | Medical Hub
